# The Oldcastle Story

Oldcastle Precast is part of CRH, a leading international building materials company. We are the largest precaster in the United States. Today, Oldcastle serves the entire country with over 75 manufacturing plants in 24 states. Each individually run facility concentrates on specific product lines and customers. The focus of our national operation is precast concrete shelters and utility products

serving the Government, Communications, Power, Water, and Gas industries. Oldcastle Storage and Electronic Equipment Shelters have been used in the communication networks throughout America for over 25 years. Our standard shelter designs will meet many requirements; however they can be customized to meet the most demanding specifications. Oldcastle *greenline* Utility Vaults are the most versatile vaults available for Telco and Power projects.
