Environmentally Responsible

All of our products are produced in a controlled environment helping us maintain the high standards implemented by Oldcastle Precast. Many of our products are specifically designed to protect and improve the environment. We're always looking for new ways to minimize waste, increase recycling, improve energy management and use eco-friendly materials.

We can provide drawings and calculations stamped by a Professional Engineer.

FUEL STORAGE

- ConVault meets uniform fire codes.
- Inspection for leaks is visual, which eliminates very expensive monitoring equipment needed to detect leaks underground.
- ConVault Vaulted Fuel Storage tanks are finished units - pumps and accessories are available - and can be set in place, ready for use.
- The ConVault tank can be customized to fit your needs. 250 - 500 - 1,000 - 2,000 - 4,000 - 5,200 - 6,000 - 8,000 - 10,000 - 12,000 gallons, split sizes also available.

Safety Regulations

Meets Government, Environmental, and Fire Safety Regulations:

- Convault AST's are UL 2085 listed and meet applicable safety requirements for secondary containment, leak monitoring, spill containment, and overfill protection
- Each Convault AST meets NFPA 30, 30A, and 31 fire safety standards.
- Convault AST's are shop fabricated under strict quality control standards.

Applications

Convault products have a wide variety of usage applications including:

- Fuel Dispensing
- Backup Generator Fuel Storage
- Boiler Fuel Supply
